

this is an infringement on my freedom of choice. if i want to listen to satellite radio, which i pay for, then it is within my right to do so. it is not up to the 'nab' (or anyone else for that matter) to tell me what i can and cannot listen to. satellite radio provides variety & up-to-the minute programming, including traffic and weather (which new yorkers follow closely)...something that 'regular' radio does not do very well. if the broadcasters have to run to 'mommy' everytime they don't get what they want, then they should not be in the business. believe it or not, there are much more important domestic/foreign issues that washington should be concentrating on, not the 'nab'. i would like to see the 'fcc' throw out 'petition 04-160' issued by the 'nab'. this is an infringement of free speech, which is protected under the 'first amendment'.
